

# Aluminium Diminishing Trim

The B.A.T Diminishing Trim provides a ramped transition from one flooring surface to another. It's primary purpose is to eliminate possible trip hazards created when two different flooring types of un-equal heights meet within a domestic or commercial installation.

Available in four different heights, the Diminishing Trim caters for most flooring surfaces, and is available in the colours listed below.

It has been reported that slips, trips and falls are one of the major causes of accidents and injury. A correct use of B.A.T. Diminishing Trim can reduce risk.

## Aluminium Diminishing Trim - Available in 3m lengths
