

Technical Information

Product Description: BATSEAL Primers are a ready-for-use solvent containing primers to optimize the adhesion of BATSEAL Silicones.

Typical Applications: BATSEAL Prime MP - For use on metals, plastics such as plexiglass, polycarbonate, UPVC, polyester, coatings, paints, etc.

BATSEAL Prime SC - For use on natural and artificial stones as well as concrete. BATSEAL Prime SC is a non staining / non yellowing primer.

Properties: BATSEAL Primer MP and SC are solvent based primers.

Application: Apply BATSEAL Clean with a clean lint free cloth to remove surface contaminants prior to applying BATSEAL Prime MP or SC and/or silicone sealant. Allow the primer to air for 30 minutes before applying silicone sealant (ensuring the silicone is applied within 6 hours of application of primer).

Ignition point:	Prime MP 420°	Prime SC 540°
Safety Labelling:	Flammable Harmful	Flammable Harmful
General Information:	Light Yellow liquid Characteristic Odour	Colourless Liquid Characteristic Odour

Contains: C7-10 Isoalkane

Contains: Acetone and Toluene

WARNING

NOT TO BE TAKEN
KEEP OUT OF REACH OF CHILDREN

WARNING

NOT TO BE TAKEN
KEEP OUT OF REACH OF CHILDREN

Packaging: 100ml, 200ml, 500ml containers

Storage: Store in cool and dry conditions in original packaging. Store away from heat and direct sunlight.

Precautions: Keep away from children. Avoid skin and eye contact. After contact with skin or eyes rinse immediately with plenty of water and seek medical advise. Ensure adequate ventilation.

- Always wear eye protection
- Avoid inhalation
- Keep container closed when not in use
- Consult Material Safety Data Sheet prior to use

- Avoid contact with skin
- Ensure adequate ventilation
- Keep away from sources of ignition

IF SWALLOWED DRINK PLENTY OF WATER.

DO NOT INDUCE VOMITING
