

# Cove Combo

The A.P.C. / Cove Combination Trim was designed, as the name suggests to be a Combination of both the A.P.C. 60 and Cove Trims.

It was primarily designed for use where only one surface, whether it be wall or floor, is tiled, and the other surface is not.

It can also be used in instances of commercial re-fits of food premises, where one of either the floor or wall is being re-surfaced.

Photograph 2, illustrates where one side of the cove provides a gradual taper that extends to the appropriate height to meet current Health Department regulations.

Prefabricated corners and joiners are readily available to ensure a hassle free installation.

## Cove Combo - Available in 3.6m lengths

B.A.T. Code:	A (mm)	B (mm)	C (mm)	D (mm)
APCOVCOM-8-	96.20	8.00	57.00	20.80
