

Mosaic Corner Guard & Corner Angle

The B.A.T. Mosaic Corner Guard is the latest addition to the vast range of B.A.T. Tiling Trims.

Designed in close conjunction with architects and interior designers, the Mosaic Corner Guard aims at giving a square edge finish to tile and wall cladding installations.

The Mosaic Corner Guard is suitable for installation with most wall coverings, including: Vinyl, Laminate, Glass Mosaic, Ceramic Tiles, or Timber, and offers endless possibilities for a professional looking finish. The Mosaic Corner Guard is available in 5 sizes.

For corners where only one side, or two sides that feature materials of differing thickness, the B.A.T Mosaic Corner Angle is the perfect solution. Where only one side of the Angle is a fixed size, the other side can be varied from zero to up to approximately 15mm, as required.
