

Splash Trim

The B.A.T. Splash Trim is designed for use where one side of a 90° join is tiled (i.e: Kitchen bench tops), instead of using grout between a bench top and the tiled surface.

By creating a radius between a tiled wall and kitchen bench top, the Splash Trim creates a finish that is easily accessible for cleaning, which avoids creation of a 90° corner where household dust and grime can build up.

Alternatively, the Splash Trim can also be used in conjunction with both wall and floor tiles to again create a radius between the two tiled surfaces. (i.e.: from a bath hob to the tiled floor).

The Splash Trim is installed by applying a bead of silicone (as illustrated in diagram) and pressing firmly against the bench top to create a sealed surface.

The Splash Trim is available in the sizes and colours listed below.

Splash Trim - Available in 3m lengths

B.A.T. Code:	A (mm)	B (mm)	C (mm)	D (mm)	E (mm)
ST-8-3-	33.50	8.00	20.20	1.30	17.60
ST-10-3-	33.50	10.00	20.20	1.30	19.60

Available in the following Anodised Colours:

BG - Bright Gold, BS - Bright Silver, MS - Matt Silver.
Other colours available on request.

Available in the Following Powdercoated Colours:
