Product Description: BATSEAL Smooth C (Ceramic) is a mild tooling agent / handling fluid for BATSEAL Ceramic silicone, general silicone, polyurethane and acrylic sealants.

BATSEAL Smooth S (Stone) is a special tooling agent for marble and other natural stones, especially suited for BATSEAL Stone silicone.

Typical Applications: BATSEAL Smooth C and Smooth S - are specially designed to allow for use with the BATSEAL Fugenmeister silicone finishing tools.

Application: Apply BATSEAL Smooth C with a clean "round brush" to the siliconed area to be smoothed. Making sure you do not apply the fluid to areas before the silicone has been applied, as it will not adhere to the surfaces.

BATSEAL Smooth S is specifically designed for optimum tooling with the BATSEAL Stone silicone and substrates such as marble and other natural stones.
