

Technical Information

Multi Purpose Cleaner

General outline of this product:

BATSEAL Cleaner MPC is a heavy duty, water-based, low foaming, hard surface concentrated cleaner specifically formulated using the latest revolutionary technology to remove grease, grime, dirt and other contaminants from all surfaces.

Developed as a superior alternative to dangerous chlorinated or caustic based products, Cleaner MPC is a special low foaming, industrial strength cleaner and degreaser that combine safety with effective cleaning.

Advantages:

Low Foaming	Safe
Non-Flammable	Non-Hazardous
Non-Corrosive	Non-Toxic
Readily Biodegradable	Multiple Uses

Features & Benefits:

✓ Safe to Use

The product is a water-based, non-flammable, non-hazardous, non-corrosive and has non-irritant properties. It has low/virtually no odour, is non-carcinogenic and is not an irritant or sensitiser, which makes it totally safe to use.

✓ Eco-friendly

Complies with Australian Standard AS4351 and is non-toxic and readily biodegradable which gives the product an excellent environmental profile.

✓ A powerful solution

It has high solvency power, and effective cleaning power for a wide range of applications. It's an aggressive industrial cleaner for floors, hard surfaces, equipment, machinery, kitchens, stainless steel and vehicles etc. This product will not damage rubber, plastic, automotive paintwork or metals when used as recommended.

✓ Australian Made

Proud supporters of the Australian Made Campaign

Directions For Application:

BATSEAL Cleaner MPC is a concentrated formula. Dilution rates are provided as a guide only. Always test in an inconspicuous area first for suitability of use and dilution rate appropriate to application. May be diluted stronger or weaker depending on the degree of soiling.

For Heavily Soiled Areas: Recommended dilution rate is 500ml to 5 litres of water (1:10) Stronger dilutions can be used for more difficult to remove contaminants.

For General Maintenance: Recommended dilution rate is 250ml to 5 litres of water (1:20) Apply to area with a spayer, cloth, broom, brush or mop and rinse with water.

For large areas, apply with a broom, soft bristled brush or mop and allow a few minutes dwell time for the cleaner to penetrate. Agitate the area to be cleaned with the broom or brush then rinse free with clean water. It is safe to use in automated scrubbing machines, with no detriment to working parts.

Other Information:

Packaging: Product is supplied in 1 and 5 litre plastic containers.

Storage/Shelf Life: Keep sealed in original containers and store in a dry cool place. When properly stored, shelf life is indefinite.
